Strategic Plan Summary

FY 2024-2029
(May 1, 2023 – April 30, 2029)

BOISE ART MUSEUM STRATEGIC PLAN SUMMARY

Introduction

This revised plan is the result of the combined efforts of the Board of Trustees and the Museum Staff to reevaluate the current state, needs, and long-range objectives of BAM and devise an actionable plan for meeting those objectives. The plan builds upon the past strategic planning exercises that engaged board, staff, and community. The updated plan provides direction for the next of five years: FY 2024-2029. This plan is considered a dynamic document, and is revised periodically as conditions warrant, while keeping the overall strategic objectives in mind. More detailed implementation plans for specific areas of focus may be developed to guide the work of the board and staff.

Mission, Vision, and Values

The plan is updated and refreshed on an annual basis, and is also thoroughly reviewed every five years. To place BAM's strategic objectives in context, it was important to reaffirm our mission and vision statements. In 2010, as the first step in the revision of the strategic plan, we were assisted in this effort by a professional facilitator, who guided us to language that was more timely, meaningful and memorable, while not changing the intent of our original mission and vision statements. A community advisory committee was convened to assist in the final stages of this process. In 2016, minor revisions were made to the sentence structure of the statements without altering the meaning or intent. In 2020, the Museum's mission, vision and values statements were reviewed and re-approved as stated.

The mission of the Boise Art Museum is to create visual arts experiences that engage people and inspire learning through exceptional exhibitions, collections, and educational opportunities.

To be a vital partner in the educational, creative, and cultural life of our communities as an innovative leader in local, regional, and national visual arts.

In 2016, we also agreed upon and added a belief statement as follows.

We believe:

- *in the value of the visual arts as integral to a holistic education;*
- *art connects to every subject, discipline, and stage of life;*

- *in the importance of direct engagement with viewing and making original works of art to better understand the role of the artist and the creative process;*
- *in the power of visual arts to transform the lives of individuals and the community;*
- *the visual arts can build tolerance, compassion, and understanding among people and a strong, diverse community;*
- *art is an essential component of human existence and a form of communication to which everyone should have access;*
- *visual arts can bring people together for a respectful dialogue about topics and issues of importance in our lives;*
- *visual arts must be valued, preserved, shared, and experienced to ensure their continual existence for future generations; and*
- *the world is better with visual arts.*
